

TheraCann SYSTEM

Licensed Cannabis production, processing and distribution is here - dried, fresh and oil based products are legally produced, processed and distributed under a variety of federal, state or provincial license regulations. We're here to help you realize your Cannabis manufacturing potential with a complete Enterprise Relational Planning (ERP) secure supply chain Web based software - TheraCannSYSTEM

TheraCannSYSTEM works together with TheraCann's BenchmarkSOLUTION, a one-stop, full-service solution that ensures future growth by taking your organization to its fullest potential in cannabis markets. From plan, design, implementation and ongoing support, we offer a software solution that's built around regulatory requirements and ability to vertically integrate clinics, cultivation, extraction, pack and label, transportation, analytical analysis and disposal.

TheraCannSYSTEM puts you in the drivers seat for Cannabis Supply Chain Management!

TheraCann International is the expert in submitting regulatory license applications, plan, design, implementation and ongoing support of cannabis production, processing, and distribution.

With our TheraCannSYSTEM ERP seed-to-sale software, proven expertise, and strong partnership with cannabis technology leaders, we are the only solution provider to bring you everything you need to complete a successful cannabis manufacturing strategy.

Application - Medical Marijuana Regulatory Applications, whether they are Federal, Provincial or State, are complex and require expert knowledge, training and expertise in cultivation, production, distribution, quality assurance and control, document management, security and confidentiality, record keeping and reporting. To be successful your application needs to be better than the rest.

Plan - Our professional team of consultants will work with you to map out the strategic plan, milestones and deliverables in getting your business up and running, to the next level of growth, or into new markets.

Design - Our dedicated team of project and technical managers work with all our clients to understand and design the most efficient and cost effective path forward. From building and security design, to application writing, to cultivation and packaging.

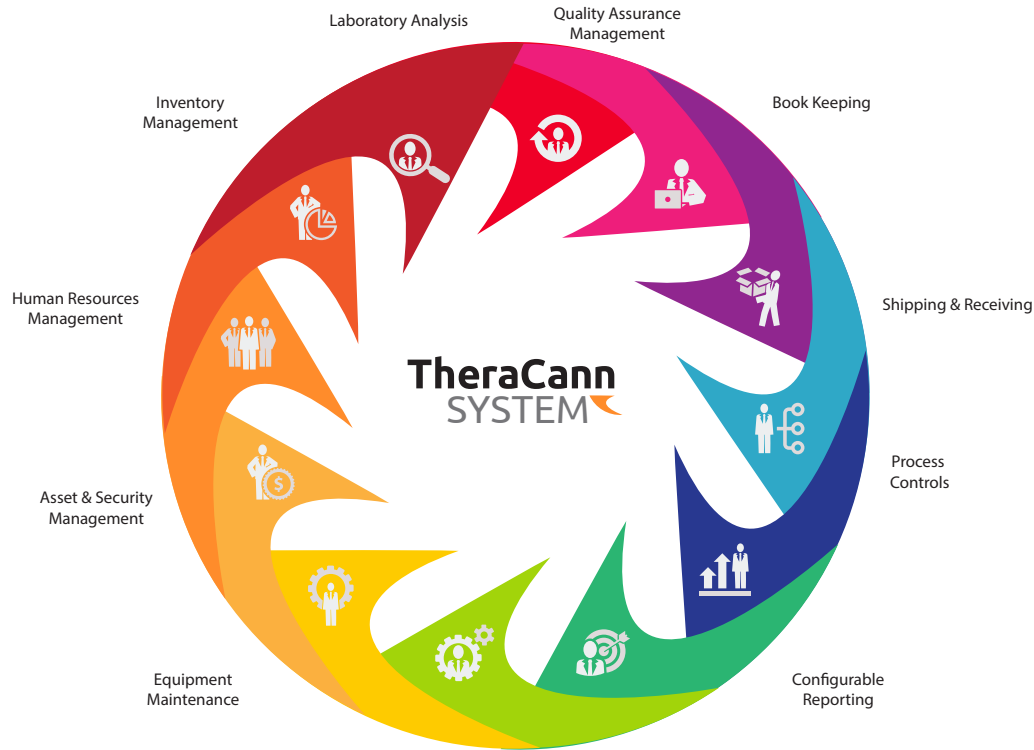

Implementation - TheraCann International is able to provide a full service team to get your business to the next level. Our team of experts, partners and dedicated suppliers has the experience and resources to allow you to leverage the latest technologies and specialized equipment, getting you to market quicker and more efficiently.

Ongoing Support - Unlike other service providers who only help you get set up never to be heard of again, we are here 24/7 to ensure you stay fully operational. Stay informed, stay in touch, stay ahead of your competitors with TheraCannSYSTEM.
